ABOUT

Dedicated and self-motivated Javascript Developer with two years of industry experience, an endless drive to learn and problem solve, and a passion to write efficient Javascript code.

TECHNICAL SKILLS

Strengths

- Javascript, HTML5, CSS3, Single Page Applications, AJAX, MithrilJS, Redux, ReactJS, LESS, NodeJS, ExpressJS, ES2015, MongoDB, Git, Github, MailChimp, Webpack, REST, OOP, and Unix

Knowledgeable

- AngularJS, PHP, Ruby, TDD/BDD, MochaJS, ChaiJS, and Continuous Integration

WORK EXPERIENCE

Front End Developer, Human Design   Aug 2015 - Feb 2017

- Promoted from Quality Assurance Tester after committing code to several projects over a two month period.
- Developed various pixel perfect, responsive, and cross browser human-centric user interfaces and websites, using HTML, CSS, Javascript, jQuery and MithrilJS.
- Worked in a collaborative environment with the UI/UX team to turn wireframes and mockups into production level web apps and sites.
- Integrated RESTful web API's (Mailchimp and Stripe) into several projects using NodeJS, MithrilJS, and ExpressJS.
- Developed a reusable component style guide/pattern library using MithrilJS for the Single Page Application - Humanwire.

Quality Assurance Tester, Human Design   Oct 2014 - Aug 2015

- Worked collaboratively with the engineering team to ensure functional and design requirements were met on projects throughout the project life cycle.

EDUCATION

B.S. in Exercise and Sport Science, Western State College of Colorado   May 2009
